

Now is a splendid time to have those pictures taken. Before the holiday rush begins we can take plenty of time to get acquainted and bring out your best points.

Also—we have some interesting things in new style mountings.

Leonard Cleanable One-Door Portable Lined Refrigerator

You never thought of tracing that last spell of sickness to your refrigerator, did you? And yet it is quite possible that the blame should be placed right there. Suppose you go right now and examine your refrigerator.

Just inside of it. Gases throw off a gas while digesting the meats which you have placed into the refrigerator. These gases, which are in the white enamel, into holes made for shell supports and other cracks and crevices, or left on the uncleanable galvanized iron, and this gas is that horrible smell; but the product of that digestion is ptomaine, a deadly poison. Then think of the

Leonard Cleanable Refrigerator

Think of the smooth, white porcelain lining, all in one solid piece, so easy to clean. Not a crack, hole or crevice for germs to hide. Then, tomorrow, as soon as you can get down, come and see and order a Leonard Cleanable—the best refrigerator made.

IT PAYS To Know Facts About Coffee.

When man takes properly selected food and drink Nature will almost always assert herself and rebuild the structure properly.

"From my earliest remembrance I was a confirmed coffee drinker," writes a gentleman, "taking two cups at nearly every meal. While at college I became very nervous, dyspeptic, irritable and unfit for study and attributed it largely to coffee, but did not stop its use."

"When I was married I found my wife was troubled the same way, and we decided to try Postum. My wife made the Postum according to directions and we found it superb. We used it exclusively for the morning beverage, and the taste of ordinary coffee became distasteful to both of us."

"We have found a distinct gain in health. Any amount of Postum does not cause a feeling of either dyspepsia or nervousness, while the return to coffee even for one meal has disastrous effects upon my nerves. My indigestion has entirely left me, and both my wife and self are well and strong and feel that it is all due to the Postum."

It is easy to replace coffee with Postum, which has, when properly made, a rich flavor and the color of coffee with none of its injurious after-effects.

DEMOCRATIC VICTORY STARTS

(Continued from Page 1)

The Territory, in this morning's paper, was the first he had heard of it. It was true he was going to the Coast, but it was on a matter of private business. Possibly he might make a trip East. While he was in Washington some time ago, he was assured that he would well for a Federal office here in the event of a change of administration.

Wants Party to Act as Whole.

Col. C. J. McCarthy was one of those who declared they had not given any thought to the filling of offices that the party might have to do, and he would not venture any expressions on the subject, in general or particular, until there was some party consultation.

"I do not believe in expressing opinions before a conference is held, either of the candidates or the executive committee," said Colonel McCarthy. "We have been a united party in this campaign, and a good method to disrupt the concord would be for individual leaders each to go as he pleased."

Mr. McCandless, who was present, concurred with the speaker.

It is reported that the national committee, John H. Wilson, was backing McCandless for governor, but as Wilson was on the other side of the island he could not be seen.

It seems to be agreed among Democrats around town that if John Edinger wants the auditor's office he should get it.

Opinion is divided in the party regarding a change in the superintendency of public works. Mr. H. K. Bishop, the newly appointed incumbent, has made a good impression on some of the Democrats, who have come into official contact with him. On the other hand, there are those who say there should be a change in the public works office with the new governor.

"There will be a great many changes," said one prominent Democrat this morning, "although they may not be all along the line."

Various municipal offices come in for discussion as liable to undergo changes, and the crucial point in each case apart from competency, will be whether the present head has been an obnoxious partisan. One sentiment heard expressed is that if the Democratic board of supervisors takes the cue from the first Republican board under the charter, when dealing with Mayor Fern's appointments, there will be a clean sweep. Even Fire Chief Thurston, if it can be shown that he was excessively active in the Republican campaign—which, however, is not charged so far as heard—will have to go. Charley Wilson was mentioned on the street this morning as a probable candidate for Thurston's job.

Whitehouse is Liked.

Lew Whitehouse, city engineer, may retain his place. It was stated by prominent Democrats this morning that he had used his influence to keep his department out of politics, only demanding work from the employees on the roads and other engineering tasks, and had declined to take part in the campaign. Road Supervisor Caldwell, however, is out of favor with the Democrats and is slated for dismissal. Caldwell is said to have used a municipal auto to haul voters to the polls on Tuesday and in other ways worked for the Republican cause.

"Jack and I have parted forever," "Good gracious! What does that mean?" "Means I'll get a five-pound box of candy in about an hour."

MUTINY ABOARD SHIP; ONE DEAD, TWO DYING

(Continued from Page 1)

Battle Between Officers and Stowaways Drives Passengers to Their Rooms

TAMPA, Fla., October 1.—Passengers aboard the steamship Brunswick, bound for New Orleans, were driven from the decks to the shelter of the cabins soon after the vessel left this port yesterday morning by a deadly battle between Capt. Avery and his officers, on one hand, and stowaways, led by a disgruntled fireman, on the other. One man is dead, two are dying in Tampa hospitals and a fourth, one of the seamen, is a prisoner at Fort Dade, charged with inciting to mutiny.

Capt. Avery had been in circulation concerning the battle. The Brunswick, steamed on for New Orleans. None of the officers or passengers were injured.

The Brunswick left early in the morning with a good passenger list and cargo, and had just been reported as having crossed the Tampa bar when wireless flash came telling of a mutiny.

Tug Goes to Aid.

The tug Resolute, all steam on, sped down the bay, carrying a physician and officers. Crowds gathered at the pier awaiting the return of the tug, many being relatives of those who had taken passage for New Orleans.

One of the crew of the tug said the officers of the Brunswick had the situation well under control when the Resolute caught up with the steamship, but that the passengers feared to venture back to their deck chairs and morning toilets, from which they had been forced to flee when the battle began.

Capt. Avery had just come up from a talk with the purser, according to the tugman's story, when he saw a fireman talking with a fellow who appeared to be a stowaway. The man had a rifle at his side, it is reported, and Capt. Avery, walking up to him, snatched it away. The stowaway grabbed a revolver from the captain's pocket and began firing in the direction of the passengers' promenade.

Signal to the Stowaways.

The opening shot was the signal for the other stowaways to appear, and all had arms. Officers hurried back to their captain's side, and returned after three of their number had fallen wounded. One of these injured men died on the return to Tampa, and the two others soon lost consciousness. It is expected both will die.

The steamship Brunswick is registered as a vessel of 2265 gross tonnage. Her present owner is the New York and Cuba Mail Steamship company. The vessel formerly was named the Niagara, and as such was one of the steamships chartered by the United States government as an army transport in 1906.

STEVENSON NOT IN IT WITH THIS COWBOY

HOLLISTER, Sept. 30.—William Rogers, a cowboy, is authority for the story just made public here that a Mexican searching party has succeeded in recovering \$75,000 which was buried by Vasquez, or some other of the historic bandits of a half-century ago, near Hepeaden Peak, in San Benito county.

According to Rogers he acted as guide to a Mexican banker and two Mexican laborers who made up the party of treasure hunters. The banker, whose name Rogers would not learn, had a map of the southern part of San Benito county, and by its aid Rogers led him to Bitterwater valley, and the treasure was located on a depression in
